

Fire Engine

RESCUE FIRE ENGINE (HLF 20 TYPE)

ON IVECO FF140E30

WATER TANK: 2000L

FOAM TANK: 120L

Chassis

- Manufacturer: Iveco
- Typ: FF140E30
- Year of manufacture: 2007
- Power: 220kW / 5,880 cm³ (approx. 299 HP)
- Drive: 6-cylinder diesel engine, automatic transmission
- Mileage: 17.500 km
- Axles: 2
- Tires: Michelin 395/85 R 20 168G (DOT 2916)

Cabin

- Doors: 4
- Seats: 9 (1/8)
- Upholstery: Fabric / leatherette, multicolored
- Color: Red
- Electric front windows

Dimensions & Weight

- Dimensions (L × W × H): 7,900 × 2,500 × 3,300 mm
- Unladen weight: 9,230 kg
- Gross vehicle weight: 14,500 kg

Superstructure

- Manufacturer: Magirus
- Design: HLF-type superstructure according to DIN 14530
- Roof features:
- Ladder removal system for 3-section ladder
- Roof-mounted storage box

Equipment Compartments

Offer

HLF 20 on Iveco FF140E30 with the following key features:

2,000-liter water tank

3 equipment compartments per vehicle side and 1 rear compartment

FPN 10/2000 firefighting centrifugal pump

The compartments feature a well-thought-out interior structure,
including a swivel wall for flexible equipment placement,
as well as dedicated mounts for a generator and hydraulic tools.

All legal regulations, safety norms and road traffic standards (STVZO, UVV) are met.

We place great value on professionalism and outstanding customer service.

We install your equipment exactly where you need it.

We're also happy to adapt your current payload setup to this vehicle
and welcome any special requests.

Our premium vehicles include a full inspection
(incl. oil change, filter replacement, pump test)
as well as a valid TÜV and safety check.

For questions or requests, we're at your service
– like the fire brigade: fast, reliable, committed.

You're welcome to visit us in Berlin for a test drive and vehicle inspection.
We'll gladly pick you up from the airport or train station if needed.

We look forward to hearing from you.
