## Angebot

### RENAULT GTLF with the following specifications:

#### Extinguishing water tank with a capacity of 9,000 liters and 900 liters of foam

Fire extinguishing centrifugal pump **FP 10/6000**,  
50 m quick attack hose on a reel in the G6 above, with electric winding.  
Light mast with **2x 1000W spotlights** (LED technology),  
pneumatically extendable to a minimum light point height of 5.5 m above the base,  
tiltable up and down by **40°**, rotatable **180°** to the right and left.

#### Warranty and service: 24 months

Compliance with the applicable UVV, standards, and  
STVZO as well as all applicable regulations.

We attach great importance to professionalism and first-class customer service.  
We install your equipment where you have always wanted it.  
We are happy to adapt your existing load to the new vehicle.  
But we are also happy to fulfill your other wishes.

#### Our vehicles are usually manufactured within 8-12 weeks after the chassis is delivered.

We are unbeatable in terms of price and do not skimp on quality.

Like the fire brigade, we are always available for questions and suggestions.

You are cordially invited to a test drive and inspection in Berlin.  
If you are traveling by train or plane, we will pick you up.

We look forward to hearing from you.
