Offer

MAN ULF TGS 26.322, 6x4 with the following specifications:

Extinguishing water tank with a capacity of **4,000 liters** + **3,000 liters** of foam
+ **1,000** kilograms of powder

3 equipment compartments on each side of the vehicle.

The equipment compartments are lowered and closed at the bottom
by dropside flaps, which also serve as steps.

FP 6000/ 8 bar centrifugal fire pump,

50 m rapid intervention hose on reel in G6.

Light mast with **2x 1000W** floodlights,

extendable to a minimum light point height of 5.5 m above the standing area.

Compliance with the applicable UVV, standards and STVZO as well as all applicable regulations.

We attach great importance to **professionalism** and first-class **customer service**.

We install your appliances where you have always wanted them.

Furthermore, we are happy to adapt your existing load to the new vehicle.

But we also look forward to your other wishes.

Our premium vehicles receive: a complete inspection
(incl. oil change, filter change, pump check)
as well as a current TÜV and SP inspection.

Just like the fire department, we are always available to answer your questions and make suggestions.

You are cordially invited to a test drive and inspection in Berlin.
If you are traveling by train or plane, we will of course pick you up.

We look forward to hearing from you.
