Offer

MFE with the following specifications:

Extinguishing water tank with a capacity of 2500 liters + 250 liters of foam

Three equipment compartments on each side of the vehicle.

The equipment compartments are lowered and closed in the lower part by side wall flaps, which also serve as steps.

FP 10/2000 centrifugal fire pump, 50 m rapid intervention hose on reel in G6 above with electric rewind.

Light mast with 2x1000 floodlights (LED technology), pneumatically extendable to a minimum light point height of 5.5 m above the standing area, can be tilted 40 degrees upwards and downwards, can be rotated 180 degrees to the right and left.

Compliance with the applicable UVV, standards and STVZO as well as all applicable regulations.

We attach great importance to professionalism and first-class customer service.

We install your equipment where you have always wanted it.

We are happy to adapt your existing load to the new vehicle.

But we also look forward to your other wishes.

Our vehicles are usually manufactured within 8-12 weeks.

We are unbeatable in terms of price and do not cut corners when it comes to quality.

We are always available for questions and suggestions, just like the fire department.

You are cordially invited to a test drive and inspection in Berlin.

If you are traveling by train or plane, we will of course pick you up.

We look forward to hearing from you.
