Feuerwehrtechnik Berlin

Tabbertstraße 12 A

12459 Berlin

Tel. 030-530 177 56

Offer

MAN GTLF 5000 with the following specifications:

Extinguishing water tank with a capacity of 4,000 liters + 1,000 liters of foam

4 equipment compartments on each side of the vehicle.

The equipment compartments are lowered and closed in the lower part by side wall flaps, which also serve as steps.

FP 2800/ 8 bar centrifugal fire pump,

50 m fast attack hose on reel in G6.

Light mast with **4x 500W** floodlights,

extendable to a minimum light point height of 5.5 m above the ground.

Compliance with the applicable UVV, standards and STVZO as well as all applicable regulations.

We attach great importance to **professionalism** and first-class customer service.

We install your equipment where you have always wanted it.

Furthermore, we are happy to adapt your existing load to the new vehicle.

But we also look forward to your other wishes.

Our premium vehicles receive: a complete inspection

(incl. oil change, filter change, pump check)

as well as a current TÜV and SP inspection.

We are always available for questions and suggestions, just like the fire department.

You are cordially invited to a test drive and inspection in Berlin.

If you are traveling by train or plane, we will of course pick you up.

We look forward to hearing from you.
