Extinguishing water tank with a capacity of 5,000 liters and 500 liters of foam

3 equipment compartments on each side of the vehicle.

The equipment compartments are lowered and closed in the lower part closed by side wall flaps, which also serve as steps.

FP 10/4000 centrifugal fire pump,

50 m rapid intervention hose on reel in G6 above, with electric rewind.

Light mast with **2x 1000W** floodlights (LED technology), pneumatically extendable to a minimum light point height of 5.5 m above the ground, can be tilted **40°** upwards and downwards, can be rotated **180°** to the right and left.

Compliance with the applicable UVV, standards and STVZO as well as all applicable regulations.

**The vehicle on
MAN 18.320, 4x4, staggered cab,
is available for immediate delivery.**

We attach great importance to **professionalism** and first-class **customer service**.

We install your appliances where you have always wanted them.

Furthermore, we are happy to adapt your existing load to the new vehicle.

But we also look forward to your other wishes.

Our vehicles are usually manufactured within 8–12 weeks.

We are unbeatable in terms of price and do not cut corners when it comes to quality.

We are always available for questions and suggestions, just like the fire department.

You are cordially invited to a test drive and inspection in Berlin.
If you are traveling by train or plane, we will of course pick you up.

We look forward to hearing from you.
