Tel. 030-530 177 56

Offer

Mercedes-Benz Atego LF 16/12 with the following specifications:

Extinguishing water tank with a capacity of 1,200 liters

Three equipment compartments on each side of the vehicle.
The equipment compartments are lowered and closed in the lower part closed by side wall flaps, which also serve as steps.

FP 10/2000 centrifugal fire pump,

50 m rapid intervention hose on reel in G6.

Light mast with **2x 1000 W** floodlights,

manually extendable to a minimum light point height of 5.5 m above the stand area.

Compliance with the applicable UVV, standards and STVZO as well as all applicable regulations.

We attach great importance to **professionalism** and first-class **customer service**.

We install your equipment where you have always wanted it.

Furthermore, we are happy to adapt your existing load to the new vehicle.

But we also look forward to your other wishes.

Our premium vehicles receive: a complete inspection
(incl. oil change, filter change, pump check)
as well as a current TÜV and SP inspection.

Just like the fire department, we are always available for questions and suggestions.

You are cordially invited to a test drive and inspection in Berlin.
If you are traveling by train or plane, we will of course pick you up.

We look forward to hearing from you.
